Mr. Rob Wood
California Native American Heritage Commission
915 Capitol Mall, Rm. 364
Sacramento, CA 95814

Dear Mr. Wood,

PROPOSED NEW POWER PLANT IN LOS ANGELES COUNTY IN THE CITY OF VERNON

The California Energy Commission has received an application for a permit to construct a new power plant in the City of Vernon, on the southeast corner of Fruitland and Boyle Avenues.

A portion of the Energy Commission's permitting process involves notifying citizens and addressing their concerns. We anticipate holding public workshops and hearings in the future, and we would like to notify representatives of the Native American community concerning the time and place of those public workshops. To help us do this, please provide (by fax, if possible) a current list of representatives of the Native American community who, to your knowledge, wish to be contacted concerning construction disturbances in their area. Please limit the list to those with traditional ties to Los Angeles County. We do not need any information concerning the location of sacred sites.

Please fax the list to: Beverly E. Bastian at (916) 651-8868.

Your timely response will be much appreciated.

If you have any questions, please call me at 654-4840. Thank you for your time.

Sincerely,

Beverly E. Bastian
