To: Energy Commission Docket Unit
Docket No 07-AFC-6

The Honorable Commissioners,

As a citizen of North County, San Diego, I would like to make myself heard on the issue of the Carlsbad Energy Project.

There are always a small minority of the population that are against anything in their area. Unfortenaly they make the most noise against any worth while proposal, while the majority are too passive, or they haven't the time to go to the meetings.

Please, do what is right for us all & don't be swayed by the few who make the most fuss.

The area next to the existing power plant is by far the best place for the new plant.

Thank you —

Robert & Virginia Sackett
