Energy Commission Docket Unit
Docket No. 07-AFC-6
1516 Ninth Street, MS-4
Sacramento, Ca 95814

DOCKET
07-AFC-6
DATE FEB 15 2010
RECD. FEB 22 2010

Dear Commissioners:

My wife and I are residents of Ocean Hills Country Club, a retirement community in Oceanside, Ca. We moved here in 1992. One of the main reasons that we moved here was because of environmental factors including minimal exposure to pollutants. In fact, we attribute our relatively good health, despite advancing years, to this.

Having already held that the siting of the NRG power plant should remain where it has been previously sited, adjacent to the 5 freeway location in Carlsbad, we stand firm in our resolve that this decision should stay as determined. We wish to continue our present life style, knowing that our exposure to pollutants, whatever form they may take, will not constitute <u>any</u> likelihood of an increased health risk to our well being.

respectfully submitted,

Allan & Nancy Schummer
