## **Shut it Down!!!!**

First of all let me urge you to Shut Down This Facility. Second of all, let me urge you to listen to residents that have had to live with the consequences of the Largest Methane Leak ever in history. Businesses in LA should not be able to comment. It is strictly for business purposes that they want this facility reopened. We live here We do not want this place to reopen!!!! This facility was never meant for gas storage it was for oil wells. It is an archaic facility that states they can have two leaks a day. I have lived here for 9 years. Many times we have smelled gas. This was not an isolated incident, WE SMELL GAS !!!!! SOCALGAS should not be able to continue this facility without an emergency plan, shutoff valves, and they need to pay for gas monitoring to be done 24/7. There then should be some kind of alarm system in place, that would notify everyone immediately that there was any kind of leak. We should not have to live with it. Socalgas has proved themselves as an untrustworthy company, that puts PROFITS BEFORE PEOPLE!!! Shut it Down !! or buy our homes!!!
