1516 NINTH STREET
SACRAMENTO, CA 95814-5512

NOTICE OF RECEIPT
PETITION TO AMEND
THE ENERGY COMMISSION DECISION for the
LOS ESTEROS CRITICAL ENERGY FACILITY PROJECT
(03-AFC-2C, PHASE I) originally licensed as (01-AFC-12C)

On June 22, 2005, the Los Esteros Critical Energy Facility (LECEF) filed a petition with the California Energy Commission requesting to modify the LECEF Project. The 180 megawatt project was certified by the Energy Commission on July 2, 2002 and was recertified under 03-AFC-2C Phase I (simple cycle) on March 16, 2005, and has been operating since March 7, 2003. The facility is located in the City of San Jose, in Santa Clara County.

DESCRIPTION OF PROPOSED MODIFICATION

The modifications proposed in the petition would implement a new method of monitoring ammonia slip, correct the hourly and daily maximum heat input limits to reflect the operating capacity of the combustion turbines, revise the limits of sulfur content in the project's gas supply, request less frequent source tests to reflect peaker facility operations, allow for the calculation of sulfuric acid emissions based on the sulfur levels in the fuel, and make other changes to clarify requirements and to maintain consistency with requested changes to the Bay Area Air Quality Management District (BAAQMD) Title V operating permit.

ENERGY COMMISSION REVIEW PROCEDURES

The purpose of the Energy Commission's review process is to assess the impacts of this proposal on environmental quality, and public health and safety. The review process includes an evaluation of the consistency of the proposed changes with the Energy Commission's Decision and if the project, as changed, will remain in compliance with applicable laws, ordinances, regulations, and standards (Title 20, Calif. Code of Regulations, section 1769). Energy Commission staff is currently analyzing the request and will publish an analysis in the next several weeks. A public hearing for the purpose of approving or denying the amendment proposal will subsequently be held at a regularly scheduled Energy Commission business meeting.

This Notice of Receipt is being mailed to interested parties and property owners adjacent to the project site who may want to participate in the amendment process.

The petition is available on the Energy Commission's website at www.energy.ca.gov/sitingcases/losesteros. The staff analysis (when published), and the Energy Commission Order (if approved), will also be posted on the website. If you would like to receive a hard copy of the petition, staff's analysis, and/or the Energy Commission Order if the changes are approved, please complete the enclosed Information Request Form and return it to the address shown.
