Re: Inland Empire Energy Center - 01-AFC-17C

Dear Mr. O'Brien:

On December 17, 2003, the California Energy Commission certified the Inland Empire Energy Center (IEEC) project. On March 11, 2005, Inland Empire Energy Center, LLC, filed Amendment #1 to change the previously-approved power generation configuration and to add an additional temporary 9.6 acre area near the project site for construction worker parking and secondary laydown. On May 17, 2005, the Project Owner also submitted a request for Commission approval to add an additional 1.97-acre parcel (the Reggio parcel) to the project for temporary use as construction laydown area.

By this letter, we ask that this request for approval of the additional 1.97 acre laydown area be accepted as a supplement or addendum to Amendment #1 and that the Commission incorporate approval of this additional laydown area at the time it issues a decision on Amendment #1.

Sincerely,

Gregg Wheatland
Counsel for Inland Empire Energy Center LLC
