Re: License Amendment No. 1: Henrietta Peaker Project (01-AFC-18) Conversion to the GWF Henrietta Combined Cycle Power Plant Project – Resubmittal of Confidential Cultural Resources and Paleontological Resources Reports

Dear Ms. Jones:

GWF Energy, LLC (“GWF” or “Applicant”) is the owner of the Henrietta Peaker Project (01-AFC-18) (“HPP”) project. The HPP received Final Decision approval from the California Energy Commission in March 2002 (the “HPP Final Decision”). GWF now proposes to convert the HPP to a combined cycle project known as the GWF Hanford Combined Cycle Power Plant (“GWF Hanford” or the “Project”), and is submitting an amendment to the HPP Final Decision.

In support of the HPP, Applicant’s consultant previously prepared and submitted several documents concerning cultural resources (collectively, the “Cultural Resources Reports”), described as follows: (1) *GWF Henrietta (HPP) Cultural Resources Technical Report – Appendix C to the AFC*, URS, June 2001; (2) *Henrietta Peaker Project Cultural Resources Technical Report, Addendum 1, Appendix C (Telephone line)*, URS, March 2002, and (3) the *Final HPP Cultural Resources Report (CUL-3)*, URS; July 2002. Applicant’s consultant also previously prepared and submitted several documents concerning paleontological resources (collectively, the “Paleontological Resources Reports”), described as follows: (1) *GWF Henrietta (HPP) Paleontological Resources Technical Report – (titled Appendix G of AFC; actually App L in AFC)*, URS, June 2001; (2) *Henrietta Peaker Project Paleontological Resources Technical Report: Appendix L – Addendum 1 (Telephone Line)*, URS, March 2002; and (3) *GWF Henrietta Peaker Final Paleontological Resources Report (Condition of Certification PAL-6)*, Lawler Associates Geoscience, July 2002.

Copies of the Cultural Resources Reports and Paleontological Resources Reports are enclosed. Applicant is providing these documents in support of the amendment to the HPP Final Decision.

LATHAM & WATKINS^{LLP}

The Cultural Resources Reports and Paleontological Resources Reports were previously designated confidential by the California Energy Commission in their entirety and indefinitely pursuant to 20 CCR Section 2505. For the convenience of staff, Applicant is again providing the Cultural Resources Reports and Paleontological Resources Reports concurrently with the amendment. The reports are provided under separate cover to maintain their confidential status.

Please let me know if you have any questions.

Sincerely,

Marc T. Campopiano
of LATHAM & WATKINS LLP
