Following up on the filing of the Staff and Applicant status reports last week . . .

The Committee is considering the already filed reports but understands that the Staff would like to file a response. It has until Monday to do so. The Applicant may also file any additional information it wishes by that same Monday deadline.

Mr. Wheatland tells me that the Applicant is trying to arrange a discussion with Staff about the schedule with the hope of coming to a stipulated schedule. I encourage that effort. Please keep the Committee posted and let us know if additional time beyond Monday would help.
