Hi Ms Elliott,

I am writing this email to let Commissioner Boyd know that I oppose the building of another power plant in Hayward that is so close to residential, schools and hospitals in the area. I live at 26855 Calaroga Ave, Hayward CA 94545, and am deeply distressed that the idea of such a plant so close to populated areas is even considered by the CEC. Please let me know how, I can let my views be on the record as this matter is considered by the CEC.

Thank you,

Krishneel Lall
