Dear Mr. Kramer,

I met you this past July at the hearing put on by the California Energy Commission in the Hayward City Council Chambers. Two the the CEC Commissioners were present and you presided at the meeting.

My questions to you sir, regarding tonight's meeting: Isn't it highly unusual for two commissioners to state in a newspaper article how the two Commissioners will be voting on the Calpine project without first hearing the public's right to comment on this matter? Both commissioners are on record as favoring the Calpine project without public commentary. Why are they prejudging the outcome of their own voting of the present Energy Commission?

Why are we meeting in September rather than October as observed at the last meeting? Thank you
