Subject: Additional Information, Russell City Energy Center Comments

CC: <laurie.suttmeier@faa.gov>, <Mark.McClardy@faa.gov>, <Joe.Rodriguez@faa....

We have received new information from FAA Flight Standards Division that we would like to have entered into the record, regarding the Russell City Energy Center. The San Francisco Airports District Office left a voicemail message with Mr. Jim Adams, Environmental Planner, California Energy Commission, on Friday, September 7, 2007.

I would like to request that FAA be given additional time to consider traffic pattern safety issues at Hayward Executive Airport.
