

CALIFORNIA ENERGY COMMISSION
REPORT OF CONVERSATION Page 1 of 1

**Systems Assessment and
 Facilities Siting Division**

FILE: RCEC Amendment No. 1

PROJECT TITLE: RCEC

<input checked="" type="checkbox"/> Telephone	653-0702	<input type="checkbox"/> Meeting Location: Telephone conversation
NAME:	James Adams	DATE: 9/13/07
WITH:	George Aiken, FAA	
SUBJECT:	Aviation concerns related to RCEC	

Mr. Aiken called me and summarized their process to date. They had a meeting yesterday with representatives from Flight Standards, Air Traffic and Airports Divisions. They will assemble a team next week to review the issues of concern including the cooling tower plumes. They will decide how much time they need to complete the analysis. I told him that Paul Kramer, the Hearing Officer, had sent him an e-mail yesterday afternoon with the link to the RCEC proceeding attached. I also reminded him that Paul should be the contact person but I would be available to him or others if they had a question about my analysis of the aviation safety issue, or if they had trouble finding the relevant documents on our website. He said he would call Paul today and give him an update as well.
