

CALIFORNIA ENERGY COMMISSION
REPORT OF CONVERSATION Page 1 of 1

**Systems Assessment and
 Facilities Siting Division**

**FILE: Russell City Energy Center
 (RCEC)**

PROJECT TITLE:

<input checked="" type="checkbox"/> Telephone	916-985-5655	<input type="checkbox"/> Meeting Location: phone	
NAME:	Mike Argentine	DATE:	19 Sept, '07
TIME:	Aprx 1:20		
WITH:	RCEC Project Owner		
SUBJECT:	Do I know anything about a letter from the FAA		

COMMENTS:

Mike Argentine called to see if I knew anything about a letter from FAA. I said that I did not; I'd check with Jim Adams and call him back.

Jim had not heard of a letter from FAA either. I called Mike back and told him that.

Within the space of an hour, an e-mail message posted to the POS (proof of service) list. As staff's compliance project manager, I am on the POS list. I forwarded the e-mail message (message is copy-pasted on the link below) to Mike Argentine at 2:25 19 Sept.

Mike,

This may be the letter which you called me about an hour ago. As I stated when I called you back, I was not aware of any FAA letter. This just came to me, unexpected, a few minutes ago. Since it went to POS, you perhaps have it as well.

Lance

An e-mail messages came from the Hearing Office, sent by Maggie Read at 2:05 containing a (pdf) of 3 FAA communications. 2 e-mail messages the final one a word doc. (these are on the website Under Russell City Energy Center-Amendment Proceedings "Documents and Reports" Other Interested Government Agencies' Documents"; the link is given:
