 Commissioner Jeffrey Byron
 Commissioner Karen Douglas

Dear California Energy Commission,

As Hayward residents, and Coordinators for the Eden Gardens Neighborhood, **we request that you DENY the application for extension of the Russell City Energy Center construction deadline.**

There are many environmental problems with this project as evidenced by the pending legal action. More violations of environmental laws are currently coming to light. Since the original approval of the plant, many more facts have been revealed about it's dangers. Also disturbing inconsistencies and errors with the handling of this project and its application and approval process are discovered daily. The more details that are learned, the more resolute Hayward's residents are against RCEC.

Hayward and its residents are adamantly opposed to the Russell City Energy Center as well as the Eastshore Energy Center.

This is your chance to close the door on a Pandora's box so to speak.

As residents and Neighborhood Coordinators of the nearby Eden Gardens Neighborhood, representing nearly 500 homes who oppose this project, we ask that you deny this extension.

Please California Energy Commissioners, we respectfully ask that you to **DENY THE APPLICATION FOR EXTENSION TO BUILD THE RUSSELL CITY POWER PLANT IN HAYWARD.**

Sincerely,
 Kimberley Finn
