Dear California Energy Commissioners:

I am writing to ask you to please DENY Calpine's application for an extension on building the Russell City Energy Center. The residents of the Hayward area have made it abundantly clear that we do NOT want to turn our community into a polluted, blighted energy dump that will endanger the health and lives of the people who call Hayward home. We LIVE here. There are thousands of residents who will be harmed by the plants. Both Calpine and Tierra plants will destroy our community as a clean, safe, comfortable, attractive place to call home.

PLEASE DENY CALPINE'S REQUEST ON WEDNESDAY, JULY 30TH--THANK YOU.

Jo Anne Gross, Hayward native  
2533 D St.  
Hayward, CA 94541
