My name is Amber Perez I live at 23751 Stratton Ct. in Hayward, CA. I have been against the both the Eastshore Power-plant and the Russell City Power-plant since I heard they were being built. I now am writing to you in hopes that all of you will also vote AGAINST THE RUSSELL CITY EXTENSION.

I am in college right now (Chabot College in Hayward to be exact) pursuing my dream of becoming a veterinarian and as most of you know UC Davis is the school I will be attending in the near future. When I am done with school I plan to move back to Hayward, own my own business and raise my family here. Also, my parents bought a home in Hayward 20 years ago. A home which they planned on raising their family and growing old in. If you vote for the Russell City extension you are doing a lot more than just crushing my parents and my dreams and hopes for the future, think of all the other people in Hayward. How many dreams are you willing to crush? Would you want two power-plants in your community?

PLEASE VOTE AGAINST THE RUSSELL CITY EXTENSION

Sincerley,

Amber Perez
