RE: Docket # 01-AFC-7C, Russell City Energy Center

Dear Ms. Dyas,

In a letter dated June 27, 2008 the Hayward Area Shoreline Planning Agency (HASPA) communicated its concern about the very limited comment period allowed by the California Energy Commission (CEC) on the petition for extension of the construction start deadline for the Russell City Energy Center. Thank you for considering that request.

At our regular meeting on September 18, 2008 the HASPA Board of Trustees voted 2 for with 1 absent, to request that the Commission take the time to fully consider the petitions filed by Rob Simpson. Once again, our Citizens Advisory Committee voiced their support for this action by HASPA.

Sincerely,

Ms. Carol Severin, Chair  
Hayward Area Shoreline Planning Agency
