**PETITION**

To: California Energy Commission: We the citizens of California urge you to reconsider your September 28, 2007 approval of Russell City Energy Center and to require the applicant to following those procedures applicable to a new application, including providing the County of Alameda and the City of Hayward, among other applicable agencies, appropriate notice. We disagree that this project is mitigated

To: City of Hayward: we urge you to take all steps to set aside this contract with the Russell City Energy Center which you have entered into without reviewing with the public the specifics of the Russell City Energy Center which has left residents without the representation of their legislators or the advocacy of the City staff to protect the public interest.

To: Alameda County Supervisors: We appreciate and support all of your efforts to require the CEC to reconsider its decision so that you and the public will have the opportunity to review the Russell City Energy Center and demand that all alternatives be examined and adequate mitigations are adopted.
