Subject: Larkspur 3
CC:

Hi Connie,

As discussed this morning, Diamond Generating hereby requests that its application for amendment of the CEC certification for the Larkspur Energy Facility in San Diego, CA (01-EP-1) be placed on hold. Earlier today Diamond Generating was informed that SDG&E would not sign the PPA for Larkspur 3. This new information requires that Diamond Generating stop work on the application; Diamond Generating cannot proceed with the Larkspur 3 amendment without a PPA.

The PPA had been negotiated between the parties and was forwarded to Debra Reed, President and Chief Financial Officer for Sempra Energy Utilities, for signature late last week but was not signed. It appears that utility concerns regarding transmission capacity in the local area was the reason. Currently, Diamond Generating plans to push forward with the transmission study to address these new concerns. However, the results of the study will not be available for months.

We very much appreciate the CEC's assistance with the application, and hope that work on the application can resume without undue delay.

Please let me know if you have any questions.

Thank you.

Christopher H. Norton
