Dear Mr. Meyer:

Bottle Rock Power, LLC (BRP) remains committed to fulfill all its obligations as required by its California Energy Commission (CEC) license (79-AFC-4C). The submission of an annual biological mitigation and monitoring status report to the CEC that details the results of mitigation and monitoring activities at the Bottle Rock facility is a critical obligation incumbent upon BRP.

In view of this obligation, BRP hereby submits the enclosed Annual Biological Mitigation and Monitoring Status Report to the CEC. In accord with Condition of Compliance 5.3(i), this Report summarizes the results of mitigation and monitoring activities conducted on behalf of the Bottle Rock Geothermal Power Plant, during the calendar year of 2006.

The acquisition of the data contained in the Report, as well as the writing of the Report itself, has been handled by EGS, Inc. The Report follows the basic format used for prior Reports so as to provide a level of consistency according to CEC Order No. 05-0511-03 that approved an *Extension of the Environmental Monitoring Program During Suspended Operations*.
