Mr. Woodward –

Attached please find the City of Shasta Lakes 2011 Supply Forms for our utility. Most of the report matches the methodology used in our previous reports. We did coordinate with the City of Redding dba REU, in regards to the reserve margins. I put 15% of our peak or 5 MW on the reserve margin line and REU reduced their reserves by the same 5 MW.

I hope you find the information in good order. If not, please do not hesitate to give me a call.

Regards,

Tom Miller
