**Subject:** Anaheim CORRECTED 2009 S-2  
**Attachments:** Anaheim Public Supply Form ( S-2) 4.1.11 Corrected.xlsx

Jim,

Anaheim has corrected it's 2009 S-2 form to reflect errors in renewable procurement data. Two Anaheim projects have been cancelled due to lack of financing on the part of the Developer. The Shoshone Preston contract was terminated due to the Developer's inability to finance, and therefore inability to develop the project. The Harmony project of Raser has also been cancelled due to Raser's inability to finance the project. The Thermo 1 project of Raser is limited to 7 MW, our contract amount was listed as 11 MW. These corrections have been made and are addressed in the corrected S-2 form attached (please see data in blue).

If there are any questions or concerns, please contact me.

Thank you,

Mandip Samra
