1516 Ninth Street, MS-4
Sacramento, CA 95814-5512

SUBJECT: Docket #11-IEP-1E Transmission Planning

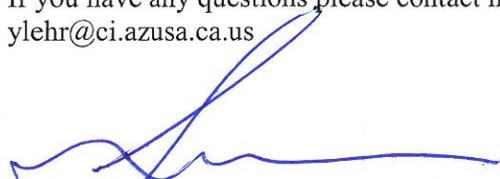

To: IEPR Committee Staff:

Azusa Light & Water (Azusa) is a Participating Transmission Owner (PTO) with the California Independent System Operator (CAISO). Accordingly, the CAISO administers Azusa's transmission rights based on the following:

1. Azusa's pre-existing long term transmission agreements with the Southern California Edison Company (SCE) pursuant to certain SCE owned and operated transmission facilities in the CAISO's Balancing Authority Area (BAA).
2. Azusa's transmission ownership rights (through Southern California Public Power Authority (SCPPA) of two (2) 500 kV transmission lines and associated substations known as Mead Adelanto Project and Mead Phoenix Project. Please note that Mead Adelanto Project is subsumed and operated within the Los Angeles Department of Water and Power (LADWP) BAA and Mead Phoenix project is subsumed and operated within Western Lower Colorado's BAA.

In light of the above, Azusa has crucial interest in how the operation, modification, and administration of the above rights/facilities is discharged, administered, and processed.

If you have any questions please contact me via phone (626) 812-5214 or via e-mail at ylehr@ci.azusa.ca.us
