

# Example Home Energy Profiles Generated From Analysis of Interval Smart Meter Data

Home #1	
Energy costs	Low
Problem area	High heating loads
Corrective action	<ul style="list-style-type: none"> <li>weatherization</li> <li>HERS audit</li> <li>retrofit</li> </ul>

California Energy Commission  
**DOCKETED**  
**12-EBP-1**  
 TN # 67702  
 OCT. 12 2012

Home #2	
Energy costs	Moderate
Problem area	High pool pump load
Corrective action	<ul style="list-style-type: none"> <li>adjust pool pump schedule</li> <li>replace with efficient pump</li> </ul>

Home #3	
Energy costs	Very high
Problem areas	<ol style="list-style-type: none"> <li>high behavioral loads</li> <li>high plug loads</li> </ol>
Corrective actions	<ol style="list-style-type: none"> <li>education</li> <li>smart strips and timers</li> </ol>
