To: Energy - Docket Optical System
Subject: --Include the docket number 12-EBP-1 and indicate "Comprehensive Energy Efficiency Program for Existing Buildings (AB 758) Scoping Report Staff Workshop" in the subject line.

Categories: Ready to Docket

To whom it may concern,

"Upgrading 1.5 million California pools will eliminate 1733 MW. This will eliminate the need for 4 power plants." Quoit from PG&E's Swimming Pool Contractor Training Course for Energy Efficient Technology Upgrade class book, page 2:

The current pool pump rebate is insufficient to move the consumer to replace a working pool pump. Only during month of May, 2011 when LADWP's pool pump rebate was \$1,000 did the consumer choose to upgrade. This is evident to the spike in the number of pool pump rebates to LADWP that month.

Raise the pool pump rebate to \$1,000. It is like buying a 1733 MW power plant for only \$1,500,00,000.
