Subject: Docket No. 12-EPIC-01

To the California Energy Commission:

I have recently been made aware of the CEC's opportunity to provide small grants to early state energy companies and entrepreneurs through Regional Innovation Clusters. As a member of California's energy business/education and technology community, I support the use of the EPIC Program for this type funding.

Additionally I support the development of GIS-based Innovation Clusters to augment and manage this new approach.

Respectfully,
