Subject: CEC Docket # 15-MISC-01

California Energy Commission

DOCKETED

15-MISC-01

TN # 74654

FEB 23 2015

To whom it may concern;

I support the petition for Emergency review of 2013 California Energy Code filed under CEC Docket # 15-MISC-01.

I have been doing energy calculations for 30 plus years and have never experienced such a shoddy, unprofessional rollout of a code. In my estimation this has done irreparable harm to the credibility of the energy conserving code, or title 24, part 6. It will take years, if ever, before we will be able to regain the trust and acceptance of the building departments and building designers.

Thank you
