Subject: 2013 Energy Standards

California Energy Commission

DOCKETED

15-MISC-01

TN # 74658

FEB 23 2015

I support Patrick Splitt's motion for an emergency hearing to address problems with the current compliance standards Docket #15-MISC-01.

Mr. Splitt has taken the time to outline the current problems in the wording of the current codes and complete construction assembly errors.
