**Subject:** New Thermostat

Before this apparatus is installed and mandated in all homes, the rules for overriding needs to be clear. Why can the Utility Co regulate my home when they can't even run a money making business. This is just the first step to **BIg** Brother. What about older people that need more heat and cooler in the summer. Nothing in the law provides that explanation. More thouhgt needs to go into this before you allow this to be come a **FACT!!!!!!**
