Jackalyne Pfannenstiel

Dear Jackalyne Pfannenstiel:

Stop the government intrusion into our own homes by requiring homeowners to install a thermostat that can be adjusted by government bureaucrats.

The fact that you are even contemplating this, and have the personnel to devote to it partially explains why we are running the kind of deficits we are.

How about you fire these people-that's right, get them in the unemployment line and stop wasting your time and our money on garbage. Take care of the problems you were elected or appointed to solve.

If you can't to that, perhaps you should leave public office as well.

Sincerely,

Todd Lorber
