Subject: DRECP Draft Alternatives:Protecting the Silurian Valley [09-RENEW EO=01]

Dear Commisioners:

Please protect the Silurian Valley from unnecessary industrial development.

Specifically, do not allow energy development in the remote Silurian Valley. A better alternative is to create clean energy by solar and wind energy by using rooftops and already disturbed areas.

Please grant conservation status to this vulnerable pristine desert wildland in order to maintain wildlife habitat and outdoor recreation options.

The Silurian Valley is an important wildlife corridor between Death Valley National Park, and the areas of the Kingston and Clark Mountains, the Soda and Avawatz ranges and the Mojave National Preserve.

Also the Silurian Valley is beautiful and scenic providing important recreational and ecotourist opportunities.

Thank you for your consideration,

Elizabeth Kennon Williams, MD
