California Energy Commission

**DOCKETED**

**09-RENEW EO-1**

TN # 75080

FEB 24 2015

The proposed desert energy plan is the most horrible idea I've ever seen for the California desert and must be rejected. No more large scale wind and solar farms and heat condensing energy plants should be located in our precious desert wilderness.

No more bulldozing and erasing old growth desert habitat for the privatization of public lands.

No more huge transmission corridors through our public lands.

ROOFTOP SOLAR- got it?

thank you for your time.
