California Energy Commission

**DOCKETED**

**09-RENEW EO-1**

TN # 75383

MAR 10 2015

Since the DRECP has moved to the "Phase Approach" reviewing BLM lands first, we believe a new supplemental EIS would be needed. By designating "Development Focus" you are creating new Solar Energy Zones on California Federal Lands. You will need a new supplemental EIS for this and you will need to define and describe every new Solar Energy Zone that is taken out of the variance process.

Moving into just a Final EIS for the plan would violate the National Environmental Policy Act.

Please give us a new, Supplemental Environmental Impact Statement for this phase approach with a 90 day review period. It's the law.

Thanks,

Kevin Emmerich
