October 24, 2005

Mr. Larry Kostrzewa  
Regional Vice President  
Business Management  
Edison Mission Energy  
18101 Von Karman Avenue, Suite 1700  
Irvine, CA 92612

Dear Mr. Kostrzewa:

**Subject: Will-Serve APNs 331-250-953, 954, 955, 956  
Sun Valley Energy Project**

This letter is to advise you that EMWD is willing and able to provide service to the proposed Sun Valley Energy Project (Sun Valley). As we understand your service requirements, the Sun Valley project will require approximately 250 acre-feet/month of recycled water (peak demands approximately 1,850 gallons per minute) for cooling and process makeup. Furthermore, we understand that the Sun Valley project will generate non-reclaimable wastewater peak daily flows of approximately 0.68 MGD. We also understand that the project would require nominal potable water and domestic sewer service along with typical fire flows from the District's potable water system.

These estimated service requirements can be satisfied from EMWD's currently available resources.

The provision of these services are contingent upon the completion of the necessary arrangements in accordance with EMWD rules and regulations and the payment of capacity fees, rates, and charges. These fees, rates, and charges would include charges for major facilities plus service charges for the ongoing needs of the project.

We anticipate that the terms and conditions of the provision of service to the Sun Valley project will be further clarified in detailed, definitive service agreements.

Sun Valley Will Serve  
October 24, 2005

EMWD looks forward to working with and providing service to the Sun Valley project in connection with its service requirements.

If you have any questions, please feel free to call me at (951) 928-3777, ext. 4461.

Sincerely,

A handwritten signature in black ink, appearing to read 'C. Bachmann', written in a cursive style.

Charles J. Bachmann  
Assistant General Manager  
Engineering
