STATE OF CALIFORNIA

Energy Resources Conservation
and Development Commission

In the Matter of)
Application for Certification Application of the)
San Francisco Electric Reliability Project) Docket No. 04-AFC-1
(SFERP))
_____)

**APPLICANT’S CLARIFICATIONS, RESERVATION OF OBJECTIONS,
AND NOTICES OF NEED FOR ADDITIONAL TIME IN RESPONSE TO
JUNE 10 DATA REQUESTS**

Pursuant to Rule 1716 of the California Energy Commission’s (CEC) Rules of Practice and Procedure, the City of San Francisco (“City” or “Applicant”) submits the following clarifications, reservation of objections, and notices of need for additional time in response to the data requests submitted by CEC staff to the City on June 10 regarding the San Francisco Electric Reliability Project (SFERP) .

The City notes that to comply with Rule 1716, the City must submit its objections and notifications of the need for additional time within 10 days, well before responses are due. The City submits these clarifications, reservation of objections, and notices of need for additional time, but will, as set forth herein, endeavor to answer all questions to the extent possible and consistent with the law, notwithstanding these reservations.

Data Request 97: Provide information on air release or combined air release/vacuum release valves proposed at high points and clean outs proposed at pipeline low points.

Comment: The City has not yet undertaken detailed design of the water supply pipeline, hence it cannot within thirty days provide information specific to the proposed one mile water supply pipeline. The City will provide its criteria for air release and combined air release/vacuum release valves. The City will design the proposed one mile water supply pipeline consistent with these criteria.

Respectfully submitted,

DENNIS J. HERRERA
