SUBJECT: STATUS REPORT #5 FOR THE SAN FRANCISCO ELECTRIC RELIABILITY PROJECT – SUPPLEMENT A (04-AFC-1)

The Scheduling Order of May 19, 2005, directed that Status Report #5 be published on July 11, 2005. We are late in filing the report as we were trying to determine the date the Preliminary Determination of Compliance (PDOC) will be filed by the Bay Area Air Quality Management District (BAAQMD).

PROJECT OVERVIEW

On March 25, 2005, Supplement A, an amendment to the Application for Certification for the San Francisco Electric Reliability Project, was filed with the California Energy Commission. The City and County of San Francisco (CCSF) initially planned to construct and operate a simple cycle power plant at the Mirant Corporation's existing Potrero Power Plant site. Supplement A changes the project location to a 4-acre site owned by CCSF that lies south of 25th Street and approximately 700 feet east of Illinois Street. The new site is approximately 1/4 mile south of the Potrero site originally proposed. The Project Committee held an Information Hearing and Site Visit on May 6, 2005.

DATA REQUEST/DATA RESPONSE

On June 3, 2005 staff received Data Response Set 3A (Responses to Data Requests #161 -193) from the applicant. Staff has determined that the Data Responses are complete and is in the process of preparing the Preliminary Staff Assessment (PSA). On June 27th staff submitted an "informal" Data Request to the applicant based on questions posed by the U.S. Fish and Wildlife Services in a meeting with them on June 22, 2005 to discuss the potential for nitrogen deposition and potential impact to the San Bruno Mountain open space preserve. Staff also had additional questions regarding soil test information supplied in the June 3, 2005 Data Response Set 3A. The applicant has agreed to respond to the informal Data Request, and is currently working on a response. This will not delay the preparation of the PSA.

COMMUNITY INVOLVEMENT

Staff attended two community presentations sponsored by the CCSF including an open house with the Bayview Hunters Point Neighborhood on June 20, 2005 and an open house with the Potrero/Dogpatch Neighborhood on June 21, 2005.

SCHEDULE

The Preliminary Determination of Compliance from the BAAQMD is a critical path item for the PSA publication. Staff contacted BAAQMD but the district did not provide a filing date for the PDOC and indicated it did not want to provide an estimated filing date. Staff will continue to work with the district to try to expedite the completion of the PDOC. This represents a delay in the project schedule as contained in the Committee's May 19, 2005 Scheduling Order which assumes receipt of a PDOC in late June. Staff anticipates filing the PSA 30 days after publication of the PDOC.
