SUBJECT: THE SAN FRANCISCO ELECTRIC RELIABILITY PROJECT (04-AFC-1) STATUS REPORT #7

Staff published the Preliminary Staff Assessment (PSA) for the San Francisco Electric Reliability Project (SFERP) on September 13, 2005. Staff will coordinate with the applicant to schedule the PSA Workshops, which will be held in San Francisco in late September or early October, 2005.

The PSA does not identify any contested issues but does identify the need for finalizing the Air Quality PM10 and PM2.5 mitigation strategy and the need for final data responses in the areas of Cultural Resources and Soil and Water Resources. Assuming that the final assessments do not change staff's current conclusions, staff is recommending approval of the SFERP with the adoption of staff's proposed conditions of certification.
