Bill,

I will definitely need to change my FSA to reflect the proposed change in the location of the process water pipeline route. In order to assess the impacts of this change to cultural resources, I will also need information additional to that provided by the applicant in the December 20 letter you gave me.

Did the applicant provide you with a description of the trench they will excavate for this new pipeline? I need dimensions, depth, and location of any anticipated use of directional drilling or jack and bore. I would also like to know if their new trench follows any existing--already disturbed--utility lines, or if they are going through previously undisturbed soils. (yes, I realize it's all fill). Are they going down a particular side of the street or down the middle? Does the location in the street change depending on what street they are on? I also have some questions about a possible buried cultural resource, the old Third Street Trestle, with which their route coincides for the 400 feet it runs along Third Street.

If you have any additional information on the pipeline, I would like to have copies. It is likely that I will also need to make some Data Requests to the applicant.

Bev

CC: Beverly Bastian; Eileen Allen

PROOF OF SERVICE (REVISED 8/6/05) FILED WITH
ORIGINAL MAILED FROM SACRAMENTO ON 1/6/06
