SUBJECT: Approval of Supplemental Investigation Workplan for the 4-acre San Francisco Electric Reliability Project parcel near 25th and Louisiana Streets, San Francisco

Dear Ms. Kubick:

Water Board staff have reviewed the subject report, submitted on June 20, 2006 by Geomatrix on behalf of the San Francisco Public Utilities Commission (SFPUC). As agreed to in the June 8, 2006 meeting between Board staff and staff from SFPUC and the California Energy Commission (CEC), additional soil, groundwater and soil vapor data will be collected to further characterize site conditions. Board staff have discussed the workplan with staff from the CEC as well as the Department of Toxic Substances Control. The report is satisfactory and is hereby approved.

Geomatrix is proposing to collect twelve soil, six grab groundwater and eight soil vapor samples. Data collected will be used to facilitate site-specific human health and ecological risk assessments, as well as to evaluate potential remedial alternatives. Field activities are expected to be performed in late June. As required by the schedule established in our June 22 directive, a report documenting and summarizing the field sampling shall be submitted by August 7, 2006.

If you have any questions, please contact Nancy Katyl of my staff at (510) 622-2408 or e-mail nkatyl@waterboards.ca.gov.

Sincerely,

Digitally signed by Stephen Hill
