Attn: James Reede

Re: 05-AFC-1

Dear Mr. Reede:

This office has received and reviewed the proposed project to be located at the existing facility in Kern County.

Pastoria Energy Facility was originally constructed under 99-AFC-7. One of the Conditions of Certification for that project was identified in Worker Safety 3. This Condition of Certification stipulated that Pastoria Energy Facility (PEF) meet with Kern County Fire Department (KCFD) and enter into a contract to provide for mitigation of impacts on the fire and life safety services provided by the Kern County Fire Department.

In May 2001 Calpine submitted a letter to CEC indicating that discussions were ongoing between PEF and KCFD. This letter was used to show completion of the mitigation requirements in Worker Safety 3, and referred to a future agreement or contract between the County of Kern and PEF. To this date, the contract has not been formalized or signed for the existing facility that is now in operation.

Application for Certification #05-AFC-1 should not be approved until such a contract is formalized and signed between the County of Kern and PEF. The contract should include adequate mitigation for all impacts to the fire and life safety services provided by the KCFD resulting from Application for Certification #99-AFC-7 in addition to the new Application for Certification #05-AFC-1.
