 Facilities Siting Division*

FILE: Power Plant Siting

PROJECT TITLE: Walnut Creek Energy Park

<input checked="" type="checkbox"/> Telephone	(213) 974-0693	<input type="checkbox"/> Meeting Location:	
NAME:	Ms. Maya Lee	DATE:	April 19, 2006
TIME:			
WITH:	County Counsel's office for Los Angeles County		
SUBJECT:	Applicable Noise Standards		

COMMENTS:

Ms. Maya Lee called to discuss the applicability of the Los Angeles County noise standards to the Walnut Creek Energy Park power plant project (WCEP). The project would be located in the neighboring City of Industry. The most noise-sensitive residential receptors that would be affected by the WCEP are located within the boundaries of Los Angeles County.

I asked if the County noise standards would apply to the WCEP, considering the noise produced from the power plant would have noise impacts on residences located within the County. Ms. Maya Lee replied that Los Angeles County has no jurisdiction over any projects within the boundaries of the City of Industry.
