Che,

The proposed gas line for the Midway Project would be approximately 800 feet long (total).
- 600 feet of the proposed gas line would be on-site and extend north from the gas fuel separator (Item #17 on the Preliminary Plan) to Panoche Road; then
- 200 feet of the proposed gas line would extend off-site from Panoche Road to the new meter station at the PG&E Substation.

Please let me know if you need any further information. Thank you!

Kindly,

Amy Gramlich,
