PROJECT TITLE: Starwood Power Project

<input checked="" type="checkbox"/> Telephone	559-655-8446 (1003)	<input type="checkbox"/> Meeting Location:	
NAME:	Mr. Kerry Finkes	DATE:	March 5, 2007
		TIME:	1:30 p.m.
WITH:	Federal Bureau of Prisons, Construction Contract Manager		
SUBJECT:	Status of Federal Correctional Institute under construction near Mendota, CA		

COMMENTS:

I called Mr.Kerry Finkes with the Federal Department of Justices, Bureau of Prisons regarding the status and schedule of the Federal Correctional Institute (FCI) that's under construction near Mendota. I shared the information I'd received from the contractor via email on 2/28/07, the text of which is provided below.

Email 2/28/07 from Tom Merrick the Director of Dick Pacific Construction
 "The Mendota FCI contract was broken into two phases to address funding problems. We will be complete with our current phase on 3/22/07 (next month). We understand that the Federal Bureau of Prisons may be releasing the future phase to go out to bid sometime soon but do not know the details. You can contact their contracting officer, Kerry Finkes at 559-655-8446 (1003)."

Mr. Finkes stated that was an accurate depiction of the project's current status and that while they are optimistic regarding future funding they do not know when construction may recommence, but they would inform the CEC if the status were to change.
