RECD. JUL 31 2006

Dear Mr. Wood,

PROPOSED NEW POWER PLANT IN SAN DIEGO COUNTY ON SAN DIEGO BAY

The California Energy Commission has received an application for a permit to replace an old power plant on the southeast edge of San Diego Bay with a new one in the same location.

A portion of the Energy Commission's permitting process involves notifying citizens and addressing their concerns. We anticipate holding public workshops and hearings in the future, and we would like to notify representatives of the Native American community concerning the time and place of those public workshops. To help us do this, please provide (by fax, if possible) a current list of representatives of the Native American community who, to your knowledge, wish to be contacted concerning construction disturbances in their area. Please limit the list to those with traditional ties to San Diego County. We do not need any information concerning the location of sacred sites.

Please fax the list to: Beverly E. Bastian at (916) 651-8868.

Your timely response will be much appreciated.

If you have any questions, please call me at 654-4840. Thank you for your time.

Sincerely,

A handwritten signature in cursive script that reads "Beverly E. Bastian".
