Notice of a Staff Data Response and Issues Resolution Workshop for the South Bay Replacement Project (06-AFC-3)

The California Energy Commission staff will hold a workshop to discuss the applicant's (LSP South Bay) responses to data requests filed on February 14, 2007. The workshop is scheduled to begin at 4:00 p.m. All interested agencies and members of the public are invited to participate. See Workshop Agenda attached.

The workshop will be held on:

MONDAY, February 26, 2007

Beginning at 4 p.m.

CITY OF CHULA VISTA COUNCIL CHAMBERS
276 Fourth Avenue, Chula Vista, California 91910
(Wheelchair Accessible)
(Map Attached)

DOCKET 06-AFC-3
DATE FEB 14 2007
RECD. FEB 15 2007

Purpose

The staff of the Energy Commission will conduct a Data Response and Issues Resolution Workshop for the proposed South Bay Replacement Project (SBRP). The workshop will describe the Energy Commission's Application for Certification (AFC) process and will provide an opportunity for the applicant, interested agencies, and the public to discuss data responses; i.e., Data Response Set 1-A, (submitted on November 29, 2006) and Data Response Set 1-B (submitted on February 14, 2007). An additional purpose of the workshop is to work toward resolving any outstanding project issues. Subjects to be discussed include: Air Quality, Public Health and Cultural Resources.

Background

On June 30, 2006, the AFC for the SBRP was submitted by the applicant to develop the SBRP as a natural gas-fired, combined-cycle power plant. The SBRP will be configured as two natural gas-fired combustion turbines with heat recovery steam generators (HRSG) and one steam turbine, and will have a nominal 500 megawatt (MW) output. The SBRP includes heat recovery steam generator (HRSG) duct firing which can raise the output up to an additional 120 MW for a maximum total capacity of 620 MW by boosting the output of the steam turbine.

The SBRP will be a replacement of the existing South Bay Power Plant (SBPP) that is owned by the San Diego Unified Port District (Port) and operated by the applicant under a Lease and Cooperation agreement with the Port. The proposed project site is immediately adjacent to and south of the existing SBPP, located near 990 Bay Boulevard in the City of

Chula Vista, California. The proposed project site is bordered by the San Diego Bay on the west and Bay Boulevard and Interstate 5 on the east. To the south is a salt production facility and to the north is the existing SBPP. The immediate area around the project site is industrial in nature, with residential housing approximately 1,000 feet to the southeast and east.

Public Participation

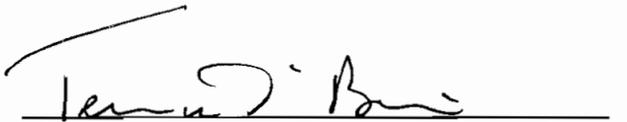

The public is encouraged to participate and provide comments as early in our process as possible. For information on how to participate in the Energy Commission's review of the proposed project, please contact Mike Monasmith of the Energy Commission's Public Adviser's office, toll free in California, at (800) 822-6228, or via email at pao@energy.state.ca.us. If you have a disability and need assistance in order to participate at the workshop, please contact Lourdes Quiroz of the Administrative Services Division at (916) 654-5146 at least five days before the meeting, or e-mail Lourdes at lquiroz@energy.state.ca.us.

Internet "Live Stream" For Workshop.

There will be internet "live stream" available for the workshop. Connecting to the internet is as follows: Go to the City of Chula Vista's website: <http://www.ci.chula-vista.ca.us/>. Click on the streaming video link located on the lower right hand side under "The Latest." See Upcoming Events and click on "Workshop for South Bay Replacement Project."

Questions

General information and documents on the proposed project including the AFC and data requests and data responses are available on the Energy Commission's website at: <http://www.energy.ca.gov/sitingcases/southbay>. Inquiries about the project should be directed to Bill Pfanner, Project Manager, at (916) 654-4206 or, by e-mail at: bpfanner@energy.state.ca.us. If you would like to obtain a hard copy of the data requests or data responses, please contact Dora Gomez, Project Secretary, at (916) 653-1608 or, email at dgomez@energy.state.ca.us. Direct media inquiries to Claudia Chandler, Assistant Executive Director, at (916) 654-4989 or, e-mail at: mediaoffice@energy.state.ca.gov.

TERRENCE O'BRIEN, Deputy Director
Energy Facilities Siting Division

Introductions/Project Description

Discussion of Energy Commission Permitting Process and Jurisdiction

Topics of Discussion

1. Cultural Resources
2. Public Health
3. Air Quality

Sequence of presentations/questions:

- Energy Commission staff – clarification of questions/issue resolution
- Applicant – Response
- Agencies' comments
- Intervenors' comments
- Public comments

Other Questions/Next step in the process
