**Subject:** Re: Panoche Workshop Location

Mr. Thompson:

The staff is free to schedule its workshops at the location it finds appropriate. As for the Committee events (Prehearing Conference, Evidentiary Hearing, PMPD Comments), we'll take the level of public interest at those future times into account in choosing the location. It would be premature to commit to a location at this time but we will take your request into consideration.

Paul Kramer  
Hearing Adviser  
Panoche Energy Center Siting Committee

As you know we had a Panoche workshop in Mendota on January 31. there were no members of the public in attendance, nor were there representatives from interested agencies. Given this, would you please consider holding future workshops in Sacramento? Thank You. Allan Thompson, for EIF Panoche
