**Subject:** Carlsbad power plant

Dear Elena,

It was a pleasure meeting you last night at the Carlsbad Community Forum. I appreciate the information you provided concerning working with the California Energy Commission. I must apologize for the crowd's rudeness. As you can guess, emotions run high when discussing the siting of a power plant.

You mentioned during our conversation about the cards citizens are sending to the CEC and the difficulties in processing them. I would like to offer the assistance of the Power of Vision group. If you would like, we would be happy to enter and organization all the information and forward it to the Commission. If you would like to send the cards to me, we will have copies made and enter the data and return it to you. Or, if you have other suggestions for processing the information we are willing to help expedite the process.

As a matter of follow-up, William Rostow did get in touch with Arnie Roe today. Thank you for your offer of assistance in helping with the communication.

Again, thank you for taking the time to visit Carlsbad and talk with us concerning this vital issue. The Power of Vision is available to assist in any way we can.

Regards,  
Julie Baker  
Power of Vision
