Docket No. 07-AFC-6

Dear Mike:

In reviewing the data on Fuel Use and NOx Emissions submitted to the CEC on April 20, 2009 by Elizabeth Hecox of Stoel Rives LLP, we noticed an anomaly in the tables on pages 17 through 55 for the 2007 NOx Emissions for each of Units 1-5. The heading on top of each page indicates that the report was generated on 01/04/07, but the heading immediately below it states that the Period Start is 01/01/06 and the Period End is 12/31/06.

We request the Applicant clarify as to which dates the data applies, 2006 or 2007.

We also request the Applicant to clarify why NOx emission data for Units 1, 2 and 3 were lumped together for year 2008, and not shown individually, as was done for year 2007 and all previous years. Since emission data is recorded separately for each unit, we request that the Applicant provide separate data for each unit so that we may appropriately analyze what effect shutting down each of these units will have on air quality.

Regards,

Julie Baker
Arnold Roe
