Sir: Re my concerns on the Encina Proposal to build a new power plant.

I am not against the plant, think its a good idea. I do not agree with the City of Carlsbad proposal to move the power plant out to the airport area, as a former City planner and City Manager, that's your business not the cities.

My concern is for the Watershed. In 2001, I was the Carlsbad Watershed Coordinator, and we wrote the first plan for all the lagoons in North County. That plan involved all seven cities (Oceanside to Del Mar) all the lagoons and focused on water quality, wildlife, development etc.

My concern is that the power company will stop its relationship with the other stake holders and the lagoon will turn into a salt marsh.

Lowell Grimaud
