Subject: CECP Data Issue

DOCKET	
07-AFC-6	
DATE	<u>MAR 11 2009</u>
RECD.	<u>MAR 13 2009</u>

Mike,

I'm working with Sierra Research to get more of the cumulative modeling results (they've only provided short-term NO2 and CO results to date, at least in tabular form in the data responses). I need this information to help me complete my response to comments. I checked the docket log against my CD/DVD collection for the case and noticed that there was a 7/25/08 Air Quality Modeling CD submitted ("Revised AQ Modeling Files (6 CDs)" - TN 47257) that I am missing. Could you please have a copy of that CD from Dockets sent to me? I need to review that to see what else I need to ask from Sierra Research.

Thanks,

Will

Mike,

Just talked with Steve and his current thought on the FDOC completion date is mid-April, although he is trying to get it done as fast as possible and hopes to beat that date. He's still waiting for some data from the applicant and he is on call for the federal jury system this month. He's calling in every week from now until April 3rd, so if called in for jury duty and impaneled that could cause further delays.

Will

Hey Will,

I hope all is going relatively well for you. Eric was curious as to when you've heard the Carlsbad FDOC might be released (if you've heard anything at all). I know at you had told me a couple weeks back that the earliest date you were expecting it was ~March 25, 2009. Is that still the case, or is there a new date:qq

Thanks and take care,

Mike
